

ADJUSTMENT

Adjustment is an optional service for students who meet and exceed the conditions of their firm choice. It gives you an opportunity to reconsider where and what to study, without losing your secured place.

Adjustment is open from 09:00 on 16 August until 31 August

During this time, students can register for Adjustment in Track. You then have five days to secure an alternative place. If you don't, you remain accepted at your original confirmed place.

A BRIEF SUMMARY OF ADJUSTMENT

- It is optional.
- Adjustment allows you to seek an alternative course without losing your secured place.
- You have five calendar days to use Adjustment, from 16 August or the day your status changes from CF to UF.
- There are no Adjustment vacancy lists. It is your responsibility to contact a university or college to discuss an Adjustment place.
- To secure an Adjustment place, you must have received an alternative offer through UCAS before the five day period ends.
- If you do not receive an alternative place, you remain accepted at your current university or college.
- Single entry applicants need to pay an additional application fee of £11 to use Adjustment.
- Applicants who are in Adjustment should make it clear when contacting providers whether they are enquiring or agreeing to accept an offer, as if the applicant is claimed in Clearing, they will not be able to retain their previous UF choice.
